WORK EXPERIENCE

Software Engineer
VST Inc [15 Oct 2023 – Current]

Country: United States

Software Developer
Updropp [Jul 2023 – 31 Oct 2023]

Country: Denmark

- Leveraged React-native features to craft dynamic frontend solutions with the purpose of transforming electronic waste into resources.
- Utilized Firebase and SQL parameters to create a robust developmental environment using queries and statements as needed for project development.
- Committed debugging and performance enhancements for maximum efficiency in project functionalities.
- Effectively collaborated with coworkers, applying Scrum and GIT to transform project visions into reality.
- Fulfilled tasks provided by project managers, with timely completion of project milestones.

Mobile-app Developer
Shoutty [1 Oct 2022 – 10 Oct 2023]

Country: United Arab Emirates

- Collaborated closely with a dynamic team of designers, product managers, and backend developers to create and enhance an innovative mobile app for a fast-growing e-commerce platform.
- Developed and integrated a secure payment gateway system, leveraging technologies such as Paystack and PayPal, ensuring seamless and reliable transactions for thousands of users.
- Embedded robust booking features, enabling users to schedule appointments, make reservations, and manage their bookings with ease, resulting in improved user engagement and customer satisfaction.
- Designed and implemented an image uploading feature, utilizing AWS S3 and DigitalOcean Spaces for scalable and secure storage, allowing users to effortlessly upload and manage images within the app.
- Integrated video and camera recording capabilities into the app, leveraging native APIs and technologies such as VisionCamera and CameraX, providing users with a seamless and intuitive multimedia experience.
- Implemented advanced video compression algorithms and optimized video streaming protocols to enhance video playback performance and reduce bandwidth consumption.
- Conducted thorough testing and debugging to ensure the reliability, stability, and optimal performance of the app across various devices and operating systems.
- Actively participated in agile development methodologies, including daily stand-ups, sprint planning, and retrospective meetings, ensuring efficient project delivery and continuous improvement.
- I am a mentor to junior developers, providing guidance on best practices, architectural patterns, and performance optimization techniques.
- I stayed up-to-date with the latest industry trends and emerging technologies by attending conferences and workshops and incorporating innovative solutions into the app development process.

Mobile-app developer
Transfy [2 Feb 2022 – 31 Dec 2022]

City: Lagos
Country: Nigeria

- Built interactive and engaging front-end components using React.js for a range of projects.
- Created custom web and mobile applications using native technologies.
- Collaborated closely with backend developers to ensure smooth integration of frontend and backend functionalities.
- Developed and maintained application components, screens, and features for the mobile-app
- Implemented push notifications, sign-in and sign-out features, and profile management.
- Participated in design discussions regarding application architecture, feature implementation, or any other relevant topic as required.
- Debugged and resolved front-end issues, improving overall application stability.

HSE-Intern
ExxonMobil Unlimited [1 Jul 2018 – 31 Mar 2019]

City: Lagos
Country: Nigeria

- Conducted in-depth assessments of EIAs, EES and Lab Analyses reports
- I oversaw and managed energy and recycling assessment of the office and implemented management controls for reduction
- I provided a detailed analysis of the EGASPIN (Environmental Guidelines and Standards for the Petroleum Industry in Nigeria) for my HSE unit
- I worked with a team that provided an energy and recycling assessment of the office and implemented management controls for reduction
- Organized and engaged in site visits for the construction and inspection of offshore materials
- Completed clerical tasks such as filing, copying, and distributing mail.
